Universal II Series Pumps

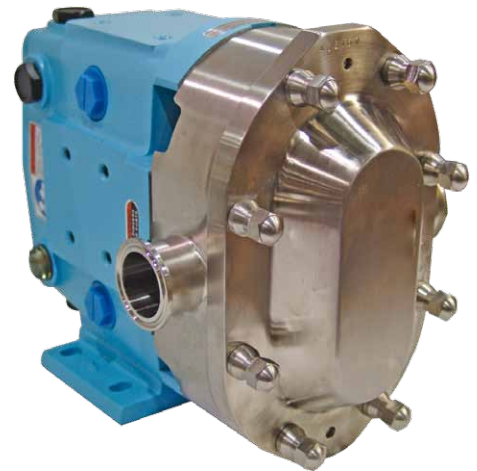

New 370 U2 Model

Universal 2 Series Pump Now Available with Higher Capacity

The new 370 Universal II pump is designed to fit applications between the size 320 and 420 UHC pumps. Capacity is rated at 1.10 gallons per revolution and a maximum pressure rating of 200 PSI.

Features and Benefits:

- Wider rotors to provide increased capacity
- Higher flow capacity than the 320 yet, less expensive than the 420 UHC pump
- Increased serviceability
- Same size and types of mechanical seals as the 320 Universal II pump
- Available in sanitary and industrial versions
- Compact size - small footprint
- Mounted in either horizontal or vertical positions
- Does not require specialized tools to service
- Available with Clean In Place option for demanding sanitary applications
